Communities

communities is a new effort designed to assist regions in creating and sustaining new economic opportunities across Virginia. The program will promote r
s in economically-distressed areas to stimulate job creation, economic development and build community capacity and leadership. Building Collaborative
n that brings to bear resources from a number of state entities, including the Lieutenant Governor's Office, Department of Business Assistance, Virginia Te
onomic Development Partnership, Department of Housing and Community Development, Virginia Community College System and other agencies as appr

be units of local government, regional partnerships, planning district commissions, and economic development organizations. Applicants must be broad-b
of leaders from relevant organizations and stakeholder groups. It is not necessary for a formal structure to be in place at the time of application, instea
ment of an entity can be proposed as an output of the project. Proposals should target areas that do not have existing, regionally focused organizations
erging, regional entities.
